 - **Other Skills:** Problem-solving, Debugging, Team Collaboration
-

Experience

Full-Stack Expense Tracking System

Power Learn Scholarship Project – May 2024

- Designed a database schema using MySQL for user authentication and expense tracking.
- Built an interactive web app using Node.js, Express.js, and JavaScript for seamless user experience.
- Debugged and tested features to ensure data accuracy and system functionality.

Restaurant Landing Page

Personal Project

- Developed a responsive landing page using HTML, CSS, and JavaScript to enhance user engagement.
- Focused on UI/UX design principles to deliver a clean and visually appealing interface.

Digital Marketplace for Buyers and Sellers

Ongoing Django Project

- Created a platform connecting buyers and sellers with features like product listings and order tracking.
- Used Django for the backend and integrated secure payment methods.

Hackathon Project: Socio-Political Data Analysis Tool

Python and Django | September 2024

- Built a platform to analyze socio-political data for addressing inequality and accountability in African nations.
 - Collaborated with a team to deliver insights and actionable recommendations.
-

Education

Power Learn Project Scholarship – Software Development (Ongoing)

Specializing in mobile and web development, database management, and entrepreneurship.

Certifications & Achievements
